Claims of material defects will

be subject to a two-year statute of limitations unless the object has been used in accordance with its standard used for a structure and has caused said structure's defectiveness. The statute of limitations for claims of material defects will begin with the delivery of the Subject of the Contract (Passage of Risk).

- 8.5 In the event of defects of title, the Supplier will additionally indemnify us against possibly arising third party claims. Defects of title will be subject to a ten-year statute of limitations.

- 8.12 **Guarantee for the proper functioning of the sold item**
When the seller of a machine, engine, appliance, or other similar items belonging to the so-called technical goods has handed over to the buyer a warranty card by which the manufacturer guarantees the proper functioning of the item, handed over to the buyer, the buyer may, if the thing does not work properly, request both the seller and the manufacturer to repair the thing within a reasonable time or if he fails to hand over the thing to him instead. These rules do not affect the rules on the seller's liability for defects.
Due to a malfunction, the buyer may request from the seller, ie from the manufacturer, repair or replacement of items during the warranty period, regardless of when the malfunction occurred. He has the right to compensation for the damage he suffered due to the fact that he was deprived of the use of the thing from the moment of requesting repair or replacement until their execution.
In case of minor repairs, the warranty period is extended as long as the buyer was deprived of the use of the thing. However, when due to a malfunction, the item is replaced or its essential repair, the warranty period begins to run again from the replacement, ie from the return of the repaired item. If only a part of the item has been replaced or substantially repaired, the warranty period shall begin to run again only for that part.

If the seller does not repair or replace the thing within a reasonable time, the buyer may terminate the contract or reduce the price and demand compensation. The seller, ie the producer is obliged to transfer the item to the place where it needs to be repaired, ie replaced, at his own expense, as well as to return the repaired or replaced item back to the buyer. During that time, the seller, ie the producer bears the risk of ruin or damage to the item.

When several independent producers participated in the production of certain parts of goods or in the execution of certain actions, their liability to the final producer for malfunction of things originating from those parts or from those actions ceases when the final producer's liability to the buyer ceases.

The rights of the buyer towards the manufacturer on the basis of the guarantee certificate shall expire after one year from the day when he requested from him the repair or replacement of the thing.

9. Product Liability and Recall

In the event that we should be subject to claims due to product liability, the Supplier will be obligated to indemnify us against such claims if and to the extent that the damage is caused by a defect in the Subject of the Contract delivered by the Supplier. In cases of fault-based liability, however, this will only apply if the fault lies with the Supplier. If the cause of the damage falls within the Supplier's scope of responsibility, then the burden of proof will reside with the Supplier in this respect. In the above cases, the Supplier will assume all costs and expenses, including the cost of any legal proceedings or product recall.

10. Additional Materials

Materials, parts, containers, and special packaging that we provide will remain our property. These items may only be used as intended. Materials will be processed and parts assembled on our behalf. It is hereby agreed that we will be co-owners of the products that the Supplier stores for us and that are manufactured with the use of our materials and parts in proportion with the value of the materials we provide relative to the value of the complete product.

Such information may not be reproduced or used for commercial purposes (other than for deliveries to us) without our prior written consent. At our request, all information that originated with us (including, where applicable, customised copies or records) and objects that we relinquished on loan must be immediately returned to us or destroyed.

We reserve all rights to such information (including copyrights and the right to register industrial property rights such as patents, utility models, mask-work rights, etc.). To the extent that these have been made available to us by third parties, this legal reservation will also apply to said third parties.

Products that we have manufactured based on documents such as drawings, models, and the like that we have designed or based on our confidential information or with our equipment or based on constructed equipment may not be used by the Supplier itself or offered or delivered by the Supplier to third parties. This also applies mutatis mutandis for our print orders.

8. Odgovornost za materijalne nedostatke i parvo na regres

- 8.1 Prijem će biti podložan pregledu zbog nedostataka, posebno zbog ispravnosti, potpunosti i upotrebljivosti. Bićemo ovlašćeni da pregledamo Predmet ugovora ako i kada to postane moguće u skladu sa pravilnim poslovanjem; obavestićemo vas o otkrivenim nedostacima odmah nakon što su otkriveni. U tom smislu, Dobavljač se ovim odriče bilo kakvog prigovora na kasno prijavljivanje nedostataka.
- 8.2 Primjenjujuće se zakonske odredbe koje se odnose na materijalne nedostatke i nedostatke vlasništva, osim ako nije drugačije regulisano u daljem tekstu (Zakon o obligacionim odnosima).
- 8.3 Strogo zadržavamo parvo izbora vrste dopunskog izvođenja. Dobavljač zadržava parvo da odbije vrstu dodatne izvedbe koju izaberemo u skladu da odredbama Nemackog građanskog zakona (BGB), član 439(3).
- 8.4 Ako dobavljač ne otpočne sa hitnim otklanjanjem kvara nakon našeg obaveštenja o otklanjanju nedostataka, zadržavamo parvo da u hitnim slučajevima, a posebno u cilju zaštite od akutne opasnosti ili izbegavanja znatne štete, sami preduzmemo takvo rešenje ili da takvo rešenje izvrši treće lice o trošku za Dobavljača. Zahtevi o materijalnim nedostacima podležu dvogodišnjem zastarevanju, osim ako

- je predmet korišćen u skladu sa svojom standardnom upotrebotom za građevinu i prouzrokovao nedostatke navedene strukture.
- Zastarevanje potraživanja materijalnih nedostataka počinje isporukom Predmeta ugovora (Prelazak rizika).
- 8.5 U slučaju nedostatka vlasništva, Dobavljač će nas dodatno obeštetiti od eventualno nastalih potraživanja trećih strana. Nedostaci vlasništva podležu zastarelosti od 10 godina.
- 8.6 Za delove isporuke koji su popravljeni u okviru zastarelosti naših zahteva za nedostatke, zastara će ponovo početi od trenutka kada je Dobavljač u potpunosti ispunio naše zahteve za dodatne performanse.
- 8.7 Ako bi nam troškovi nastali kao rezultat neispravne isporuke Predmeta ugovora, posebno transportni troškovi, troškovi transportne infrastrukture, troškovi rada, materijalni troškovi ili troškovi koji prelaze uobičajeni opseg ulazne kontrole, tada će Dobavljač snositi navedene troškove.
- 8.8 Ako bi smo trebali povući proizvode koje smo proizveli i/ili prodali kao posledicu neispravnosti predmeta ugovora koje je isporučio Dobavljač ili ako je naša otkupna cena pala iz istog razloga ili ako smo na drugi način angažovani za iz istog razloga, zadržaćemo parvo regresa protiv Dobavljača, pri čemu rokovi koji bi inače bili neophodni neće biti potrebeni za potvrđivanje naših prava koja proizilaze iz navedene neispravnosti.
- 8.9 Bićemo ovlašćeni da zahtevamo od Dobavljača nadoknadu za troškove koje smo morali snositi u odnosu na našeg klijenta jer je navedeni klijent podneo zahtev protiv nas za nadoknadu radi dodatnog izvršenja neophodnih rashoda, posebno transportnih troškova, troškova transportnih infrastrukture, troškova rada i troškova materijala.
- 8.10 Bez obzira na odredbu u Odeljku 8.4, zastara u slučajevima navedenim u odeljcima 8.8 i 8.9 počinje da teče najranije dva meseca nakon što smo ispunili potraživanja koja je naš klijent podneo protiv nas, a najkasnije pet godina nakon isporuke do Dobavljača.
- 8.11 Ako bi se materijalni nedostatak pojavio u roku od šest meseci od prenosa rizika, prepostaviti će se da je nedostatak postojao pre prelaza rizika, osim ako je navedena pretpostavka nespojiva s prirodom predmeta ili nedostatkom.
- 8.12 Garancija za ispravno funkcionisanje prodate stvari**
- Kada je prodavac neke mašine, motora, kakvog aparata, ili drugih sličnih stvari koje spadaju u takozvanu tehničku robu predao kupcu garantni list kojim proizvođač garantuje ispravno funkcionisanje stvari u toku određenog vremena, računajući od njene predaje kupcu, kupac može, ako stvar ne funkcioniše ispravno, zahtevati kako od prodavca tako i od proizvođača da stvar opravi u razumnom roku ili ako to ne učini da mu umesto nje preda stvar koja funkcioniše ispravno.
- Ovim pravilima ne dira se u pravila o odgovornosti prodavca za nedostatke stvari. Kupac može zbog neispravnog funkcionisanja zahtevati od prodavca, odnosno od proizvođača opravku ili zamenu stvari u toku garantnog roka, bez obzira na to kad se nedostatak u funkcionisanju pojavio. On ima parvo na naknadu štete koju je pretrpeo usled toga što je bio lišen upotrebe stvari od trenutka opravke ili zamene do njihovog izvršenja. U slučaju manje opravke, garantni rok se produžava onoliko koliko je kupac bio lišen upotrebe stvari. Međutim, kad je zbog neispravnog funkcionisanja izvršena zamena stvari ili njena bitna opravka, garantni rok počinje teći ponovo od zamene, odnosno od vraćanja opravljene stvari. Ako je zamjenjen ili bitno opravljen samo neki deo stvari, garantni rok počinje teći ponovo samo za taj deo. Ako prodavac ne izvrši u razumnom roku opravku ili zamenu stvari, kupac može raskinuti ugovor ili sniziti cenu i zahtevati naknadu štete. Prodavac, odnosno proizvođač je dužan da o svom trošku prenese stvar do mesta gde treba da se opravi, odnosno zameni, kao i da popravljenu, odnosno zamjenjenu stvar vrati natrag kupcu. Za to vreme prodavac, odnosno proizvođač snosi rizik za propast ili oštećenje stvari. Kad je u izradi pojedinih delova stvari ili u izvršenju pojedinih radnji učestvovalo više samostalnih proizvođača, njihova odgovornost prema finalnom proizvođaču za neispravno funkcionisanje stvari koje potiče od tih delova ili od tih radnji prestaje kad prestane odgovornost finalnog proizvođača prem kupcu stvari.
- Prava kupca prema proizvođaču po osnovu garantnog lista gase se po isteku jedne godine računajući od dana kada je tražio od njega opravku ili zamenu stvari.
- 9. Odgovornost proizvoda i opoziv**
- U slučaju ako bismo bili podvrgnuti zahtevima zbog odgovornosti za proizvod, Dobavljač će biti u obavezi da nas obešteći po osnovu takvih potraživanja ako i u meri u kojoj je šteta nastala zbog nedostataka u Predmetu ugovora koji je isporučio Dobavljač. U slučajevima odgovornosti zasnovane na greškama, ovo će se primeniti samo ako greška leži na dobavljaču. Ako uzrok štete spada u opseg odgovornosti Dobavljača, tada će teret dokazivanja snositi dobavljač u tom pogledu. U gore navedenim slučajevima, Dobavljač će preuzeti sve troškove i izdatke, uključujući troškove svih pravnih postupaka ili opoziva proizvoda.
- 10. Dodatni materijali**
- Materijali, delovi, kontejneri i specijalna ambalaža koje pružamo ostaće naše vlasništvo. Ovi predmeti se mogu koristiti samo prema nameni.
